Case Description: Not Provided

EVIDENCE FILE DETAILS

Filename:	MARCO_ATTITUDE_STATUS_shorts_marco_unnimukundan_viralvideo_720p.mp4
Media Type:	video
MIME Type:	video/mp4
File Size:	5.52 MB
Dimensions:	720 × 1280 pixels
Duration:	0m 33s
Frame Rate:	30.0 FPS
Uploaded:	2026-03-14T16:11:28.761627

1. EXECUTIVE SUMMARY

The video evidence depicts multiple individuals in a wooded outdoor environment, engaging in what appears to be a series of physical altercations. One primary subject, P1, is repeatedly shown with red liquid consistent with blood on his face and clothing, appearing to be involved in struggles and making contact with other individuals. Several sharp objects, consistent with knives, are visually observable in the possession of P1 and in close proximity to individuals.

KEY EVIDENCE OBSERVATIONS

• Multiple individuals are present in a wooded outdoor setting (F1).

• P1 is observed with red liquid consistent with blood on his face and clothing at various points throughout the video (F4, F5, F8, F11, F13, F17, F19, F20, F24, F27, F30).

• P1 appears to be involved in physical struggles with other individuals (F6).

• Sharp objects, consistent with knives, are visible and appear to be used in physical contact with individuals (F14, F17, F18, F25, F29).

• Several individuals are observed lying motionless on the ground at different points (F27, F28).

2. EVIDENCE INTEGRITY

SHA-256 Hash:	Not computed
File Size:	5.52 MB
Media Format:	video/mp4
Resolution:	720 × 1280
Frame Rate:	30.0 FPS
Duration:	0m 33s
Codec:	h264
Processing Timestamp:	2026-03-14T16:11:28.761627

3. VIDEO QUALITY ASSESSMENT

Resolution Rating:	High
Lighting Quality:	Clear
Motion Blur:	Minimal
ID Reliability:	High

4. SCENE DESCRIPTION

The scene appears to be an outdoor, wooded area, possibly a forest or jungle, with trees, sparse vegetation, and dirt/leaf-covered ground. A body of water is visible in the background at later stages (F28). A silver SUV is also visible in the background at one point (F8, F16).

Camera Perspective:

Position: The camera appears to be handheld, with frequent cuts and close-ups, suggesting dynamic movement and focus on specific subjects.
Field of View: The field of view varies from wide shots showing multiple individuals and the environment to extreme close-ups of faces and objects.
Limitations: Lighting appears consistent, possibly overcast or diffused. Some motion blur is present during rapid movements. The overall visibility is generally clear, though some scenes are darker or have atmospheric effects (F27).

5. INCIDENT RECONSTRUCTION

Phase	Description	Time Range	Severity	Evidence
1	Initial gathering of individuals in a wooded area. P1 is present, and another individual (P2) is observed holding a chainsaw. P1 appears to initiate a physical movement towards P2.	00:00:00-00:00:02	MEDIUM	F1
2	P1 is shown with red liquid consistent with blood on his face, appearing to be in distress. He is then observed being physically restrained by multiple individuals and later crawling on the ground.	00:00:03-00:00:07	HIGH	F4

3	P1 is standing, still with red liquid consistent with blood on his face, in the presence of an older individual (P6) and other subjects. P1's hands appear to be restrained. A sharp object, consistent with a knife, is observed making contact with P1's skin.	00:00:08-00:00:15	CRITICAL	F11
4	P1 is observed holding a sharp object, consistent with a knife, near his own face, and later appears to make physical contact with P6. P1 then appears to perform a striking motion with a sharp object towards another individual (P11).	00:00:16-00:00:27	CRITICAL	F17
5	P1 is standing over an individual (P12) lying motionless on the ground, with other motionless individuals visible in the background. P1 then appears to perform a downward movement with a sharp object towards another individual (P13) lying on the ground near a body of water.	00:00:28-00:00:31	CRITICAL	F27

6. PERSONS OF INTEREST

P-ID	Description	Observed Role	Visibility	Seen	Actions
P1	Male, dark hair, bearded, wearing a black jacket over a black shirt, later a bro	primary subject, possible victim, possible aggressor	High	00:00:00	Appears to perform a left arm movement towards P2 (F2); Appears to be
P2	Male, dark hair, bearded, wearing a black long-sleeve shirt and dark cargo pants	participant, possible aggressor	Medium	00:00:00	Observed holding a chainsaw (F1); Appears to react to P1's movement (F
P3	Male, dark hair, bearded, wearing a black t-shirt.	participant	Medium	00:00:00	Visible in the background (F1); Appears to be involved in a physical s
P4	Male, dark hair, wearing a black t-shirt.	participant	Medium	00:00:00	Visible in the background (F1); Appears to be involved in a physical s
P5	Male, dark hair, wearing a black t-shirt.	participant	Medium	00:00:05	Appears to be involved in a physical struggle with P1 (F6)
P6	Male, older, grey hair, wearing sunglasses, a black suit, and a silver chain.	participant, possible leader	High	00:00:09	Standing near P1 (F9); Observed in close-up (F12, F21); Appears to hav
P7	Male, dark hair, bearded, wearing a black t-shirt.	bystander/participant	Medium	00:00:09	Visible in the background (F9)
P8	Male, tall, dark hair, bearded, wearing a black t-shirt.	participant	Medium	00:00:11	Standing behind P1 (F11); Arm visible on P1's shoulder (F13)
P9	Male, bald, bearded, wearing a black t-shirt.	participant	Medium	00:00:16	Appears to be screaming (F16)
P10	Male, dark hair, wearing a black t-shirt.	participant	Low	00:00:20	Visible behind P1 (F20)

P11	Male, dark hair, wearing a black t-shirt.	possible possible victim	Medium	00:00:25	Appears to be struck by P1 with a sharp object (F25)
P12	Male, wearing dark clothing.	possible possible victim	Medium	00:00:28	Observed lying motionless on the ground (F27)
P13	Male, wearing dark clothing.	possible possible victim	Medium	00:00:30	Observed lying motionless on the ground near water (F28); Appears to h

7. WEAPONS & OBJECTS DETECTED

#	Object	Timestamp	Confidence	Held By	Evidence Ref
1	Chainsaw	00:00:00	High (90%)	N/A	F1
2	Knife/Sharp Object	00:00:15	High (90%)	N/A	F14
3	Knife/Sharp Object	00:00:18	High (90%)	N/A	F17
4	Knife/Sharp Object	00:00:26	High (90%)	N/A	F25
5	Knife/Sharp Object	00:00:31	High (90%)	N/A	F29
6	SUV	00:00:08	High (90%)	N/A	F8

Chainsaw: A power tool with a rotating chain of cutting teeth.

Knife/Sharp Object: A long, single-edged blade with a handle.

Knife/Sharp Object: A long, single-edged blade with a handle, appearing to have red liquid consistent with blood on it.

Knife/Sharp Object: A long, single-edged blade with a handle, appearing to have red liquid consistent with blood on it.

Knife/Sharp Object: A long, single-edged blade with a handle, appearing to have dark liquid consistent with blood on it.

SUV: A silver sport utility vehicle.

8. RISK & THREAT ASSESSMENT

Threat Level: CRITICAL

Risk Factors: Presence of multiple individuals, visible physical altercations, use of sharp objects and a power tool, visible red liquid consistent with blood, individuals observed motionless on the ground.

Justification: The observed actions and objects indicate a high potential for severe physical harm to multiple individuals. The repeated use of sharp objects and the presence of motionless subjects suggest a critical threat level.

Recommended Response: Immediate and thorough investigation by law enforcement, including identification of all individuals, forensic analysis of the scene, and medical assessment of all involved parties.

9. AI CONFIDENCE MATRIX

Detection Type	Confidence Level	System Estimate
Object Recognition	UNKNOWN	75%
Scene Understanding	UNKNOWN	75%

Event Reconstruction	UNKNOWN	75%
Identity Consistency	UNKNOWN	75%

10. AI PROCESSING DISCLOSURE

Evidence media was analyzed using an external AI multimodal vision model (Google Gemini). Media was transmitted temporarily to the AI service for analysis and was deleted from the AI provider's servers immediately after processing. The AI service does not retain or store any evidence data. No evidence data is stored by this platform.

11. EVIDENCE HANDLING & CHAIN OF PROCESSING

The uploaded media file was processed entirely in volatile memory. No copy of the evidence file, extracted frames, or analysis results are stored in persistent storage by this platform. All processing artifacts are destroyed after report generation and session expiry.

Processing Steps:

1. Evidence file uploaded to in-memory buffer
2. SHA-256 hash computed for integrity verification
3. Media metadata extracted (resolution, codec, duration)
4. Video uploaded to AI service for multimodal analysis
5. AI analysis results received as structured JSON
6. Structured forensic report compiled from analysis
7. PDF report generated in-memory
8. Evidence file deleted from AI service servers
9. All in-memory artifacts scheduled for automatic cleanup
