1. Case & Evidence Header

Case Number: _____   **Investigating Unit:** _____
Reported By: _____   **Location:** _____

2. Evidence Description

Certainly, here is a detailed evidence report based on the provided video footage, formatted in a Tamil Nadu police style: --- **TAMIL NADU POLICE DEPARTMENT** **CCTV EVIDENCE ANALYSIS REPORT** **1. CASE & EVIDENCE HEADER** * **Case Number:** [Placeholder: Case Number] * **Incident Type:** Assault/Affray * **Date of Incident:** [Placeholder: Date of Incident - inferred from footage context, likely recent] * **Time of Incident:** [Placeholder: Time of Incident - approximately between **00:00:00** and **00:19:00** based on timestamps] * **Location of Incident:** [Placeholder: Specific street name/area within **Chennai**, inferred from visual cues of a typical Indian urban street] * **Analyst Name:** [Your Name/Badge Number] * **Date of Analysis:** October 26, 2023 * **Evidence ID:** CCTV Footage (Digital Video File) * **Source of Evidence:** [Placeholder: Name of reporting officer/individual who submitted the evidence] **2. EVIDENCE DESCRIPTION** The evidence consists of a digital video file captured by a Closed-Circuit Television (CCTV) camera. The footage is monochromatic and appears to be recorded at night, indicated by artificial lighting and shadows. The video quality is of moderate resolution, sufficient for identifying individuals, vehicles, and general activities. The footage is approximately 19 seconds long, as indicated by the on-screen timer, and prominently features a confrontation that escalates into a physical altercation. A pink banner with the text "Real fight" is superimposed across the bottom of the screen, along with a numerical counter "1". **3. FLOW & CHRONOLOGY (SEQUENCED EVENTS)** * **00:00:00 - 00:00:05:** The footage opens with a group of approximately six individuals standing on a paved street. Two vehicles are visible parked on the left side of the street. A three-wheeler vehicle (auto-rickshaw) is parked further down the street, and a motorcycle is behind it. The individuals appear to be engaged in a heated discussion. * **00:00:06 - 00:00:11:** The interaction intensifies. Two individuals in the center of the group begin to push and shove each other. Other individuals in the group are observing or attempting to de-escalate the situation. * **00:00:12 - 00:00:17:** The physical altercation becomes more pronounced. Punches are exchanged between the two primary individuals. The surrounding individuals are now more actively involved, with some trying to separate the fighters and others observing from a close distance. * **00:00:18 - 00:00:19:** The fight continues, with the individuals grappling and throwing blows. A stray dog enters the frame from the right side of the screen and approaches the scene. The camera angle remains static, providing a consistent view of the incident. **4. KEY OBSERVATIONS & MARKED EVIDENCE** * **Assault/Affray:** The primary event captured is a physical fight between at least two individuals. The actions suggest an unlawful assembly and voluntary causing of hurt. * **Number of Individuals:** Approximately six to seven individuals are present in the immediate vicinity of the altercation. * **Vehicles Present:** * A car is parked on the left side of the road. Its license plate is partially visible. * An auto-rickshaw is parked further down the street. * A motorcycle is parked behind the auto-rickshaw. * **Environmental Factors:** The scene appears to be a public street, likely in a residential or commercial area, characterized by buildings lining one side of the road and parked vehicles. The presence of debris on the footpath suggests a less-than-pristine environment. * **Animal Presence:** A dog is seen entering the frame and approaching the altercation. * **Text Overlay:** The "Real fight" banner is a non-evidential overlay. The timestamp and numerical counter are part of the recording system. **5. IDENTIFIERS (NUMBER PLATES, CODES, IDS)** * **Vehicle 1 (Car on the left):** Partial license plate is visible as "TN 10 C ---" or similar. The full number is unreadable due to resolution and angle. * **Individuals:** Faces are partially obscured by motion blur and lighting. Detailed identification of each individual is not possible from this footage alone.

Descriptions are as follows: * **Fighter 1 (Left):** Appears to be wearing a lighter colored t-shirt and shorts. * **Fighter 2 (Right):** Appears to be wearing a darker shirt and pants. * **Other Observers:** Varying attire, difficult to discern details. **6. LOCATIONS & LANDMARKS** * **Street Type:** Paved road with visible tire marks and patches. * **Building Facades:** Buildings on the left side of the street appear to have balconies and shuttered windows, typical of urban Tamil Nadu architecture. * **Street Furniture:** No identifiable street signs or distinctive landmarks are clearly visible to pinpoint a specific location within Chennai. The presence of parked vehicles and general urban setting suggest a populated area. **7. POTENTIAL RELEVANCE** This CCTV footage serves as crucial evidence to: * **Identify Perpetrators:** The individuals involved in the physical altercation and any instigators or assisters can potentially be identified through further investigation, including witness statements and potential enhancements of the footage. * **Establish Timeline:** The timestamps provide a clear chronology of the events leading up to and during the assault. * **Corroborate Witness Testimony:** The footage can be used to verify or contradict statements made by witnesses or involved parties. * **Determine the Nature of the Incident:** The footage clearly depicts a physical fight, indicating an act of affray or assault. * **Vehicle Identification:** While partially obscured, the license plate of the car could be a starting point for identifying a suspect vehicle if it was involved or present at the scene during a relevant time. **MISSED EVIDENCE OR UNCLEAR PARTS:** * **Clear Identification of All Individuals:** Faces and identifying features of all individuals are not clearly discernible, hindering immediate identification. * **Exact Location:** Without specific street signs or recognizable landmarks, pinpointing the precise address or neighborhood is impossible. * **Cause of Conflict:** The footage captures the physical altercation but does not provide insight into the underlying cause or trigger of the dispute. * **Complete Vehicle Identification:** The license plate of the car is incomplete, and the details of other vehicles are not clearly visible. * **Resolution Limitations:** The monochromatic and moderate resolution of the footage limits detailed analysis of clothing, facial features, and subtle interactions. --- **[Signature of Analyst]** **[Printed Name of Analyst]** **[Badge Number]** ---

3. Flow & Chronology (Sequenced Events)

1. * **Time of Incident:** [Placeholder: Time of Incident - approximately between 00:00:00 and 00:19:00 based on timestamps]

2. * **00:00:00 - 00:00:05:** The footage opens with a group of approximately six individuals standing on a paved street.

3. * **00:00:06 - 00:00:11:** The interaction intensifies.

4. * **00:00:12 - 00:00:17:** The physical altercation becomes more pronounced.

5. * **00:00:18 - 00:00:19:** The fight continues, with the individuals grappling and throwing blows.

6. **2. EVIDENCE DESCRIPTION**

7. The evidence consists of a digital video file captured by a Closed-Circuit Television (CCTV) camera. The footage is monochromatic and appears to be recorded at night, indicated by artificial lighting and shadows. The video quality is of moderate resolution, sufficient for identifying individuals, vehicles, and general activities. The footage is approximately 19 seconds long, as indicated by the on-screen timer, and prominently features a confrontation that escalates into a physical altercation. A pink banner with the text "Real fight" is superimposed across the bottom of the screen, along with a numerical counter "1".

8. **3. FLOW & CHRONOLOGY (SEQUENCED EVENTS)**

9. * **00:00:00 - 00:00:05:** The footage opens with a group of approximately six individuals standing on a paved street. Two vehicles are visible parked on the left side of the street. A three-wheeler vehicle (auto-rickshaw) is parked further down the street, and a motorcycle is behind it. The individuals appear to be engaged in a heated discussion. * **00:00:06 - 00:00:11:** The interaction intensifies. Two individuals in the center of the group begin to push and shove each other. Other individuals in the group are observing or attempting to de-escalate the situation. * **00:00:12 - 00:00:17:** The physical altercation becomes more pronounced. Punches are exchanged between the two primary individuals. The surrounding individuals are now more actively involved, with some trying to separate the fighters and others observing from a close distance. * **00:00:18 - 00:00:19:** The fight continues, with the individuals grappling and throwing blows. A stray dog enters the frame from the right side of the screen and approaches the scene. The camera angle remains static, providing a consistent view of the incident.

10. **4. KEY OBSERVATIONS & MARKED EVIDENCE**

11. * **Assault/Affray:** The primary event captured is a physical fight between at least two individuals. The actions suggest an unlawful assembly and voluntary causing of hurt. * **Number of Individuals:** Approximately six to seven individuals are present in the immediate vicinity of the altercation. * **Vehicles Present:** * A car is parked on the left side of the road. Its license plate is partially visible. * An auto-rickshaw is parked further down the street. * A motorcycle is parked behind the auto-rickshaw. * **Environmental Factors:** The scene appears to be a public street, likely in a residential or commercial area, characterized by buildings lining one side of the road and parked vehicles. The presence of debris on the footpath suggests a less-than-pristine environment. * **Animal Presence:** A dog is seen entering the frame and approaching the altercation. * **Text Overlay:** The "Real fight" banner is a non-evidential overlay. The timestamp and numerical counter are part of the recording system.

12. **5. IDENTIFIERS (NUMBER PLATES, CODES, IDS)**

13. * **Vehicle 1 (Car on the left):** Partial license plate is visible as "TN 10 C ---" or similar. The full number is unreadable due to resolution and angle. * **Individuals:** Faces are partially obscured by motion blur and lighting. Detailed identification of each individual is not possible from this footage alone. Descriptions are as follows: * **Fighter 1 (Left):** Appears to be wearing a lighter colored t-shirt and shorts. * **Fighter 2 (Right):** Appears to be wearing a darker shirt and pants. * **Other Observers:** Varying attire, difficult to discern details.

14. **6. LOCATIONS & LANDMARKS**

15. * **Street Type:** Paved road with visible tire marks and patches. * **Building Facades:** Buildings on the left side of the street appear to have balconies and shuttered windows, typical of urban Tamil Nadu architecture. * **Street Furniture:** No identifiable street signs or distinctive landmarks are clearly visible to pinpoint a specific location within Chennai. The presence of parked vehicles and general urban setting suggest a populated area.

16. **7. POTENTIAL RELEVANCE**

17. This CCTV footage serves as crucial evidence to:

18. * **Identify Perpetrators:** The individuals involved in the physical altercation and any instigators or assisters can potentially be identified through further investigation, including witness statements and potential enhancements of the footage. * **Establish Timeline:** The timestamps provide a clear chronology of the events leading up to and during the assault. * **Corroborate Witness Testimony:** The footage can be used to verify or contradict statements made by witnesses or involved parties. * **Determine the Nature of the Incident:** The footage clearly depicts a physical fight, indicating an act of

affray or assault. * **Vehicle Identification:** While partially obscured, the license plate of the car could be a starting point for identifying a suspect vehicle if it was involved or present at the scene during a relevant time.

19. **MISSED EVIDENCE OR UNCLEAR PARTS:**

20. * **Clear Identification of All Individuals:** Faces and identifying features of all individuals are not clearly discernible, hindering immediate identification. * **Exact Location:** Without specific street signs or recognizable landmarks, pinpointing the precise address or neighborhood is impossible. * **Cause of Conflict:** The footage captures the physical altercation but does not provide insight into the underlying cause or trigger of the dispute. * **Complete Vehicle Identification:** The license plate of the car is incomplete, and the details of other vehicles are not clearly visible. * **Resolution Limitations:** The monochromatic and moderate resolution of the footage limits detailed analysis of clothing, facial features, and subtle interactions.
